## Report of Independent Auditors

The Board of Directors  
Baker Boyer Bancorp and Subsidiary

### Report on the Audit of the Consolidated Financial Statements

#### *Opinion*

We have audited the consolidated financial statements of Baker Boyer Bancorp and Subsidiary (the Bank), which comprise the consolidated balance sheets as of December 31, 2021 and 2020, and the related consolidated statements of income, comprehensive income, shareholders equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Baker Boyer Bancorp and Subsidiary as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinion*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Bank and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Bank's ability to continue as a going concern within one year after the date that the consolidated financial statements are issued.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the bank's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the bank's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Notes to Consolidated Financial Statements

---

### Note 1 - Summary of Significant Accounting Policies

#### Nature of Operations

Baker Boyer Bancorp (the Company) and its wholly owned subsidiary, Baker Boyer National Bank (the Bank), provide banking services primarily to the greater Walla Walla and Columbia Valley area of southeastern Washington and northeastern Oregon. Services are marketed primarily to individuals, small businesses, and the agricultural industry. The Company and its subsidiary are subject to competition from other financial institutions, as well as non-financial intermediaries. Primary sources of revenue are loans, investment securities, and wealth management services. The Company and its subsidiary are also subject to the regulations of certain federal and state agencies and undergo periodic examinations by those regulatory agencies.

#### Principles of Consolidation

The consolidated financial statements include the amounts of the parent company and its wholly owned subsidiary. All significant intercompany transactions and balances have been eliminated.

#### Segment Reporting

While the chief decision-makers monitor the revenue streams of the various products and services, operations are managed, and financial performance is evaluated on a Company-wide basis. All services and products are considered but not evaluated separately. Accordingly, all the financial service operations are considered by management to be aggregated in one reporting operating segment.

#### Use of Estimates

In preparing consolidated financial statements in conformity with accounting principles generally accepted in the United States (U.S. GAAP), management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as the date of the consolidated balance sheets and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The material estimate that is particularly susceptible to significant change in the near term relates to the determination of the allowance for credit losses.

#### Subsequent Events

Subsequent events are events or transactions that occur after the date of the consolidated balance sheet but before the consolidated financial statements are issued. The Company recognizes in the consolidated financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the consolidated balance sheet, including the estimates inherent in the process of preparing the consolidated financial statements. The Company's consolidated financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the consolidated balance sheets but arose after the date of the consolidated balance sheets and before the financial statements are available to be issued.

The Company has evaluated subsequent events through February 22, 2022, the date on which the consolidated financial statements were available to be issued.

*(continued)*

## Notes to Consolidated Financial Statements

---

### Note 1 - Summary of Significant Accounting Policies *(continued)*

#### **Cash and Cash Equivalents**

Cash and cash equivalents include amounts due from banks and federal funds sold. The Company maintains balances in depository institutions which at any time may exceed federally insured limits. Federal funds sold generally mature in one day.

#### **Interest Bearing Deposits at Other Financial Institutions**

Interest bearing deposits at other financial institutions mature within five years, are carried at cost, and may at times exceed federally insured limits.

#### **Debt Securities Available for Sale**

Securities available for sale consist of debt securities that the Bank intends to hold for an indefinite period, but not necessarily to maturity. Such securities may be sold to implement the Bank's asset/liability management strategies and in response to changes in interest rates and similar factors. Securities available for sale are reported at fair value. Unrealized holding gains and losses, net of tax, are reported in other comprehensive income (loss).

Realized gains and losses on securities available for sale are recorded on trade date, determined using the specific-identification method, are included in earnings. For callable securities purchased at a premium, income is recognized by amortizing the premium over the period to the earliest call date. For non-callable securities purchased at a premium, income is recognized by amortizing the premium over the period to maturity. For securities purchased at a discount, income is recognized by accreting the discount over the period to maturity. Interest income includes amortization of purchase premiums and discounts, premiums, and discounts on securities are amortized using the level yield method.

#### **Debt Securities Held to Maturity**

Debt securities for which the Company has the positive intent and ability to hold to maturity are reported at cost, adjusted for purchase premiums or discounts.

Declines in the fair value of individual securities held to maturity and available for sale below their cost that are other than temporary result in impairments of the individual securities to their fair value. Management, reviewing quarterly, considers the following factors when determining other than temporary impairment (OTTI) for a security: the length of time and the extent to which the market value has been less than amortized cost, the financial condition and near-term prospects of the issuer, terms and structure of the security, the underlying fundamentals of the relevant market and the outlook for such market for the near future. Management also assesses whether the Company has (1) the intent to sell the security, or (2) more likely than not will be required to sell the security before its anticipated market recovery. If the security is likely to be sold or if it is likely the security will be required to be sold before recovering its cost basis, the entire impairment loss would be recognized in earnings as OTTI. If the Company does not intend to sell the security and it is not likely the security will be required to be sold, but management does not expect to recover the entire amortized cost basis of the security, only the portion of the impairment loss representing credit losses would be recognized in earnings as OTTI. The credit loss on a security is measured as the difference between the amortized cost basis and the present value of the cash flows expected to be collected. Projected cash flows are discounted by the original interest rate when a security is analyzed for potential OTTI. The remaining impairment related to all other factors, the difference between the present value of the cash flows expected to be collected and fair value, is recognized as a charge to other comprehensive income (OCI).

*(continued)*

## Notes to Consolidated Financial Statements

---

### Note 1 - Summary of Significant Accounting Policies *(continued)*

#### **Equity Securities**

Equity securities are carried at fair value, with changes in fair value reported in net income.

#### **Other Restricted Stock**

The Company is a member of the Federal Home Loan Bank of Des Moines (“FHLB”) and as a member is required to maintain a minimum level of investment in FHLB stock based on its outstanding FHLB borrowings. The Company’s investment in FHLB stock is restricted and has no quoted market value and is carried at par value (\$100 per share). Management periodically evaluates FHLB stock for impairment. The securities were not considered to be impaired at December 31, 2021 or 2020.

The Company also holds Pacific Coast Bankers’ Bancshares (“PCBB”) stock and Federal Reserve Bank (FRB) Stock. No ready market exists for PCBB and FRB stock, and it has no quoted market value. These restricted securities are carried at cost.

#### **Loans Held for Sale**

Mortgage loans originated and intended for sale in the secondary market are carried at the lower of aggregate cost or estimated market value. Net unrealized losses, if any, are recognized through a charge to earnings. There were no loans held for sale December 31, 2021 and 2020.

Mortgage loans are generally sold with servicing rights retained. The carrying value of mortgage loans sold is reduced by the amount allocated to the servicing right. Gains or losses on sales of mortgage loans are based on the difference between the selling price and the carrying value of the related loans sold.

#### **Loans and Allowance for Credit Losses**

Loans receivable that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their outstanding principal balances adjusted for any charge-offs, the allowance for credit losses, and any deferred fees or costs on originated loans, and unamortized premiums or discounts on purchased loans. Loan fees and certain direct loan origination costs are deferred, and the net fee or cost is recognized as an adjustment to interest income.

Interest income on loans is accrued over the term of the loans based upon the principal outstanding. The accrual of interest on loans is discontinued when, in management's opinion, the borrower may be unable to meet payments as they become due, generally once a loan becomes 90 days delinquent. Past due status is based on contractual terms of the loan. When interest accrual is discontinued, all unpaid accrued interest is reversed against interest income. Interest income is subsequently recognized only to the extent that cash payments are received until, in management's judgment, the borrower has the ability to make contractual interest and principal payments, in which case the loan is returned to accrual status.

Because some loans may not be repaid in full, an allowance for credit losses is recorded. An allowance for credit losses is a valuation allowance for probable incurred credit losses. The allowance for credit losses is increased by a provision for credit losses charged to expense and decreased by charge-offs (net of recoveries). The allowance is based on ongoing, quarterly assessments of the probable and estimable losses inherent in the loan portfolio. The Company’s methodology for assessing the appropriateness of the allowance consists of several key elements, which include the formula allowance and specific allowances.

*(continued)*

## Notes to Consolidated Financial Statements

---

### **Note 1 - Summary of Significant Accounting Policies** *(continued)*

#### **Loans and Allowance for Credit Losses** *(concluded)*

The formula portion of the general credit loss allowance is established by applying a loss percentage factor to the different loan types. The allowances are provided based on management's continuing evaluation of the pertinent factors underlying the quality of the loan portfolio, including changes in the size and composition of the loan portfolio, actual loan loss experience, current economic conditions, geographic concentrations, seasoning of the loan portfolio, specific industry conditions, and the duration of the current business cycle. The recovery of the carrying value of loans is susceptible to future market conditions beyond the Company's control, which may result in losses or recoveries differing from those provided.

Specific allowances are established in cases where management has identified significant conditions or circumstances related to a loan that management believes indicate the probability that a loss has been incurred. Impaired loans consist of loans receivable where the Company has determined it is probable, they will be unable to collect all the contractual interest and principal payments. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case, taking into consideration all of the circumstances surrounding the loan and borrower, including the length of delay, the reasons for delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan by loan basis by either the present value of expected future cash flows discounted at the loans effective interest rate or the fair value of the collateral if the loan is collateral dependent. Large groups of smaller balance homogeneous loans are collectively evaluated for impairment.

The ultimate recovery of all loans is susceptible to future market factors beyond the Company's control. These factors may result in losses or recoveries differing significantly from those provided in the consolidated financial statements. In addition, regulatory agencies, as an integral part of their examination process, periodically review the Company's allowance for loan losses and may require the Company to make additions to the allowance based on their judgment about information available to them at the time of their examinations.

#### **Troubled Debt Restructuring**

Loans may occasionally be restructured due to economic or legal reasons relating to the borrower's financial condition by granting a concession to protect the Company's investment. Examples of such concessions include forgiving of principal or accrued interest, extending the maturity date(s), or providing a lower interest rate than would normally be available for a transaction of similar risk. This generally occurs when the financial condition of the borrower necessitates temporary or permanent relief from the original contractual terms of the loan. A loan restructured in a troubled debt restructuring ("TDR") is an impaired loan and is accounted for as such. If a borrower on a restructured accruing loan has demonstrated performance under the previous terms and shows the capacity to continue to perform under the restructured terms, the loan will remain on accrual status. Otherwise, the loan will be placed on nonaccrual status until the borrower demonstrates repayment ability over a period of not less than six months. A TDR that has been in compliance with its modified terms and which yields a market rate will not be reported as a troubled debt restructuring in calendar years after the year in which the restructuring took place.

*(continued)*

## Notes to Consolidated Financial Statements

---

### Note 1 - Summary of Significant Accounting Policies *(continued)*

#### **Premises and Equipment**

Premises and equipment are recorded at cost. Depreciation is computed on the straight-line method over the following estimated useful lives: building and improvements - up to forty years; software, furniture, and equipment - three to seven years; and automobiles - five years. Amortization of leasehold improvements is calculated on the straight-line method over the shorter of the estimated useful lives of the assets or corresponding contractual lease term, which does not generally include renewal options. These assets are reviewed for impairment when events indicate their carrying value may not be recoverable. If management determines impairment exists, the asset is reduced with an offsetting charge to expense. The cost of maintenance and repairs is charged to expense as incurred. Gains and losses on dispositions are reflected in earnings.

#### **Foreclosed Real Estate**

Real estate properties acquired through, or in lieu of, foreclosure are to be sold and are initially recorded at the fair value of the properties less estimated costs of disposal. Any write-down to fair value at the time of transfer to foreclosed real estate is charged to the allowance for credit losses. Properties are evaluated regularly to ensure that the recorded amounts are supported by their current fair values. Any subsequent reductions in carrying values and revenues and expenses from the operations of properties are charged to operations. The Company had no foreclosed real estate at December 31, 2021 and 2020.

#### **Servicing**

Servicing assets are recognized when rights are acquired through purchase or through sale of financial assets. Servicing rights resulting from the sale or securitization of loans originated by the Company are initially measured at fair value at the date of transfer. Fair value is based on a valuation model that calculates the present value of estimated future net servicing income. The valuation model incorporates assumptions that market participants would use in estimating future net servicing income, such as the cost to service, the discount rate, the custodial earnings rate, an inflation rate, ancillary income, prepayment speeds and default rates and losses. The Company has elected to subsequently measure the servicing rights using the amortization method. Under the amortization method, servicing rights are amortized in proportion to and over the period of estimated net servicing income.

Each class of servicing assets subsequently measured using the amortization method are evaluated and measured for impairment. Impairment is determined by stratifying rights into tranches based on predominant characteristics, such as interest rate, loan type and investor type. Impairment is recognized through a valuation allowance for an individual tranche, to the extent the fair value is less than the carrying amount of the servicing assets for that tranche. The valuation allowance is adjusted to reflect changes in the measurement of impairment after the initial recognition of impairment. Changes in valuation allowances are reported with other income on the consolidated statement of income. Fair value in excess of the carrying amount of servicing asset for that stratum is not recognized.

Servicing fee income is recorded for fees earned for servicing loans. The fees are based on a contractual percentage of the outstanding principal; or a fixed amount per loan and are recorded as income when earned. The amortization of mortgage servicing rights is netted against loan servicing fee income.

#### **Trust Assets**

Assets held by the Company in a fiduciary or agency capacity for trust department customers are not included in the consolidated financial statements because such items are not assets of the Company or its subsidiary. Assets totaling \$1,661,801,000 and \$1,349,937,000 were held in trust as of December 31, 2021 and 2020, respectively.

*(continued)*

## Notes to Consolidated Financial Statements

---

### Note 1 - Summary of Significant Accounting Policies *(continued)*

#### Transfers of Financial Assets

Transfers of an entire financial asset, a group of entire financial assets, or a participating interest in an entire financial asset are accounted for as sales when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when: (1) the assets have been isolated from the Company, (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and (3) the Company does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity or the ability to unilaterally cause the holder to return specific assets.

#### Advertising Costs

Advertising costs are expensed as incurred. Advertising costs were \$179,000 and \$245,000 for the years ending December 31, 2021 and 2020, respectively.

#### Income Taxes

Deferred income taxes reflect the effect of temporary differences between the tax basis of assets and liabilities and the reported amounts of those assets and liabilities for financial reporting purposes. Deferred tax assets and liabilities are reflected at currently enacted income tax rates applicable to the period in which the deferred tax assets or liabilities are expected to be realized or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all the deferred tax assets will not be realized. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

Financial Accounting Standards Board (FASB) ASC 740-10, *Income Taxes*, requires recognition and measurement of uncertain tax positions using a “more-likely-than-not” approach. The Company’s approach to FASB ASC 740-10 consisted of an examination of its financial statements, its income tax provision, and its federal and state income tax returns. The Company analyzed its tax positions including the permanent and temporary differences as well as the major components of income and expense. As of December 31, 2021, the Company did not believe that it had any uncertain tax positions that would rise to the level of having a material effect on its financial statements. In addition, the Company had no accrued interest or penalties as of December 31, 2021. It is the Company’s policy to record interest and penalties as a component of income tax expense.

#### Deposit service charges

The Company earns fees from its deposit customers for account maintenance, transaction-based activity, and overdraft services. Account maintenance fees consist primarily of account fees and analyzed account fees charged on deposit accounts on a monthly basis. The performance obligation is satisfied, and the fees are recognized on a monthly basis as the service period is completed. Transaction-based fees on deposit accounts are charged to deposit customers for specific services provided to the customer, such as non-sufficient funds fees, overdraft fees, and wire fees. The performance obligation is completed as the transaction occurs and the fees are recognized at the time each specific service is provided to the customer.

#### Debit and ATM interchange fee income and expenses

Debit and ATM interchange income represent fees earned when a debit card issued by the Company is used. The Company earns interchange fees from debit cardholder transactions through the Visa payment network. Interchange fees from cardholder transactions represent a percentage of the underlying transaction value and are recognized daily, concurrently with the transaction processing services provided to the cardholder. The performance obligation is satisfied, and the fees are earned when the cost of the transaction is charged to the cardholders’ debit card. Certain expenses directly associated with the credit and debit card are recorded on a net basis with the interchange income.

*(continued)*

## Notes to Consolidated Financial Statements

---

### Note 1 - Summary of Significant Accounting Policies *(concluded)*

#### **Trust and Investment Management Fees and Brokerage revenue**

Trust and Investment Management and Brokerage fees consist of transaction fees earned from asset management, trade execution and administrative fees from investments. Asset Management fees are variable, since they are based on the underlying portfolio value, which is subject to market conditions and amounts invested by clients. Asset management fees are recognized over the period that services are provided, and when the portfolio values are known or can be estimated at the end of each quarter. Brokerage transaction fees are fixed and determinable, based on security type and trade volume, and are recognized upon trade execution. In addition, revenues are earned from selling insurance and annuity policies. The amount of revenue earned is determined by the value and type of each instrument sold and is recognized when the policy is in force.

#### **Gain on other real estate owned, net**

The Company records a gain or loss from the sale of other real estate owned when control of the property transfers to the buyer, which generally occurs at the time of an executed deed of trust. When the Company finances the sale of other real estate owned to the buyer, the Company assesses whether the buyer is committed to perform their obligations under the contract and whether collectability of the transaction price is probable. Once these criteria are met, the other real estate owned asset is derecognized and the gain or loss on sale is recorded upon the transfer of control of the property to the buyer. In determining the gain or loss on sale, The Company adjusts the transaction price and related gain or loss on sale if a significant financing component is present.

#### **Earnings Per Common Share**

Basic and diluted earnings per common share are calculated using a two-class method. Under the two-class method, basic earnings per common share is calculated by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period, excluding outstanding participating securities. Participating securities include non-vested restricted stock awards. Diluted earnings per common share is calculated by dividing net income available to common shareholders by the weighted average number of common shares outstanding determined for the basic earnings per share calculation plus the dilutive effect of unvested restricted shares and options of common stock using the treasury stock method.

#### **Stock-Based Compensation**

The Company records compensation expense in the accompanying consolidated statements of income related to restricted stock awards by recognizing the grant date fair value of such awards. Compensation cost is recognized over the required service period, generally defined as the vesting period.

#### **Comprehensive Income**

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. However, certain changes in assets and liabilities, such as unrealized gains and losses on available for sale securities, are components of comprehensive income and are reported in a separate statement following the statements of income, along with net income.

#### **Fair Value of Financial Instruments**

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in a separate note. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect these estimates.

## Notes to Consolidated Financial Statements

---

### Note 2 - Restricted Assets

Federal Reserve Board regulations often require that the Company maintain reserves in the form of cash and deposit balances with the Federal Reserve Bank, based on a percentage of deposits. For years ended December 31, 2021 and 2020, no reserves were required.

### Note 3 - Debt Securities

Debt securities have been classified according to management's intent. The amortized cost of securities and their approximate fair values were as follows (*dollars in thousands*):

	<b>Amortized Cost</b>	<b>Gross Unrealized Gains</b>	<b>Gross Unrealized Losses</b>	<b>Fair Values</b>
<b>Securities Available for Sale</b>				
<b>December 31, 2021</b>				
U.S. Government and agency securities	\$136,543	\$106	\$2,015	\$134,634
State and political debt securities	173,508	1,698	1,366	173,840
<b>Total</b>	<b>\$310,051</b>	<b>\$1,804</b>	<b>\$3,381</b>	<b>\$308,474</b>
<b>December 31, 2020</b>				
U.S. Government and agency securities	\$61,069	\$327	\$34	\$61,362
State and political debt securities	122,876	2,756	183	125,449
<b>Total</b>	<b>\$183,945</b>	<b>\$3,083</b>	<b>\$217</b>	<b>\$186,811</b>
<b>Securities Held to Maturity</b>				
<b>December 31, 2021</b>				
State and political debt securities	<b>\$1,330</b>	<b>\$30</b>	<b>\$0</b>	<b>\$1,360</b>
<b>December 31, 2020</b>				
State and political debt securities	<b>\$1,322</b>	<b>\$49</b>	<b>\$0</b>	<b>\$1,371</b>

(continued)

## Notes to Consolidated Financial Statements

### Note 3 - Debt Securities *(continued)*

The fair values of temporarily impaired debt securities, the amount of unrealized losses, and the length of time these unrealized losses existed as of December 31 are as follows *(dollars in thousands)*:

	<u>Less Than 12 Months</u>		<u>More Than 12 Months</u>		<u>Total</u>	
	<u>Fair Values</u>	<u>Unrealized Losses</u>	<u>Fair Values</u>	<u>Unrealized Losses</u>	<u>Fair Values</u>	<u>Unrealized Losses</u>
<b>Securities Available for Sale</b>						
<b>December 31, 2021</b>						
U.S. Government and agency securities	\$95,850	\$1,282	\$21,766	\$733	\$117,616	\$2,015
State and political debt securities	93,042	1,081	13,061	285	106,103	1,366
<b>Total</b>	<b>\$188,892</b>	<b>\$2,363</b>	<b>\$34,827</b>	<b>\$1,018</b>	<b>\$223,719</b>	<b>\$3,381</b>
<b>December 31, 2020</b>						
U.S. Government and agency securities	\$17,465	\$34	\$0	\$0	\$17,465	\$34
State and political debt securities	22,509	183	0	0	22,509	183
<b>Total</b>	<b>\$39,974</b>	<b>\$217</b>	<b>\$0</b>	<b>\$0</b>	<b>\$39,974</b>	<b>\$217</b>

As of December 31, 2021, and 2020, there were 423 and 77 securities available for sale, respectively, in an unrealized loss position. There were no securities held to maturity at December 31, 2021 and 2020, with unrealized losses. Management has concluded, as of December 31, 2021 and 2020 that these investments are not other-than-temporarily impaired, respectively. This assessment was based on the following factors: i) the length of time and the extent to which the market value has been less than cost; ii) the financial condition and near-term prospects of the issuer; iii) the intent and ability of the Company to retain its investment in a security for a period of time sufficient to allow for any anticipated recovery in market value; iv) general market conditions which reflect prospects for the economy as a whole, including interest rates and sector credit spreads; and v) whether it's more likely than not that it will be required to sell the security before its anticipated market recovery. Because the Company does not intend to sell the securities in this class and it is not likely that the Company will be required to sell these securities before recovery of their amortized cost basis, which may include holding each security until contractual maturity, the unrealized losses on these investments are not considered other-than-temporarily impaired.

*(continued)*

## Notes to Consolidated Financial Statements

### Note 3 - Debt and Equity Securities *(concluded)*

The contractual maturities of debt securities available for sale and held to maturity at December 31, 2021, are as follows *(dollars in thousands)*:

	Available for Sale		Held to Maturity	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due in one year or less	\$18,068	\$18,176	\$0	\$0
Due from one year to five years	172,479	171,367	1,330	1,360
Due from five to ten years	95,151	94,397	0	0
Due after ten years	24,353	24,534	0	0
<b>Total</b>	<b>\$310,051</b>	<b>\$308,474</b>	<b>\$1,330</b>	<b>\$1,360</b>

There were no gross gains or losses realized on sales of securities in 2021 or 2020.

Securities, carried at approximately \$51,397,000 at December 31, 2021 and \$53,899,000 at December 31, 2020, were pledged to secure repurchase agreements, public and trust deposits, and for other purposes required or permitted by law.

### Note 4 – Loans

Major classifications of loans at December 31 consist of the following *(dollars in thousands)*:

	2021	2020
Commercial	\$74,475	\$101,960
Commercial Real Estate	\$135,692	\$141,527
Residential Real Estate	\$121,260	\$93,174
Consumer, Installment, and other	\$8,861	\$10,923
	<b>340,288</b>	<b>347,584</b>
Less net deferred loan origination fees	(\$495)	(\$447)
<b>Total loans</b>	<b>\$339,793</b>	<b>\$347,137</b>

*(continued)*

## Notes to Consolidated Financial Statements

### Note 4 - Loans (continued)

The following table summarizes activity related to the allowance for loan losses and the unpaid principal balance in loans by portfolio segment and based on impairment method as of (*dollars in thousands*):

	December 31, 2021					Total
	Commercial	Commercial Real Estate	Consumer, Installment, and other	Real Estate Residential	Unallocated

### Note 4 - Loans (continued)

Loans receivable identified as nonaccrual loans at December 31, are presented by loan class in the table below.

(dollars in thousands)

	<u>2021</u>	<u>2020</u>
Commercial		
Business	\$0	\$0
Agricultural	0	0
Commercial Real Estate		
Owner Occupied	833	852
Non-owner Occupied	162	825
Consumer - Other	104	107
Residential	15	25
<b>Total</b>	<b><u>\$1,114</u></b>	<b><u>\$1,809</u></b>

**Credit Quality Indicators.** The Company utilizes internal risk ratings for its credit quality indicators. The internal risk ratings (1) provide a basis for evaluating, monitoring, and reporting the overall quality of the loan portfolio, (2) promptly identify deterioration of loan quality and the need for remedial action, and (3) emphasize areas requiring upgrading of policies, procedures, or documentation.

The internal risk ratings are as follows:

#### **EXCEPTIONAL LOANS (A)**

These are generally the Company's best loans. The borrower is well established with the Company and is in excellent financial condition. The character and repayment ability of the borrower is without question. They have a long history of profits and their credit is impeccable. The loan is normally unsecured, but security sometimes is taken. The repayment risk to the Company is negligible. Financial statements and tax returns are provided on a timely basis. In addition, the loan has low handling costs in relation to borrowings.

#### **QUALITY LOANS (B)**

These loans provide excellent primary and secondary sources of repayment with no identifiable risk of collection. They conform in all respects to Bank Policy and Federal Regulations. The operation has a minimum of two previous years of profitability and ample liquidity to withstand adversity. Probability of serious financial deterioration is unlikely. Financial statements and tax returns are acquired on a timely annual basis.

#### **SATISFACTORY LOANS (C)**

These loans have adequate sources of repayment with minimal identifiable risk of collection and conform to Company policy and Federal Regulations. These loans may show some slight weaknesses such as vulnerability to changing economic conditions, weaker ratios, an unprofitable previous year or the original terms had to be altered. There may be a split vote for approval by the loan committee.

#### **PASS-WATCHED LOANS (W)**

These loans have acceptable credit, but on which requires more than the normal level of supervision and warrants formal quarterly management reporting. Credits in this category are not yet criticized or classified, but due to adverse events or aspects of underwriting require closer than normal supervision. Generally, credits assigned this risk rating should not be in this category for longer than 18 months. A lack of any new information may result in a minimum downgrade to Special mention after the 18-month period expires.

(continued)

## Notes to Consolidated Financial Statements

---

### Note 4 - Loans *(continued)*

#### **OTHER LOANS ESPECIALLY MENTIONED (O)**

These loans have developed weaknesses and as a result deserve management's close attention. Special Mention loans are currently protected but are potentially weak assets. Potential weaknesses if left uncorrected could result in the borrower's inability to repay the loan or deterioration in the Company's credit position at some future date. Such weaknesses would include, but not be limited to:

- Prospect of or actual loan covenant violations.
- Ongoing negative financial trends (i.e. two or more concurrent years of losses).
- Negative or potentially negative company news.
- Negative industry trends, news or forecasts.
- Lack of current financial information.
- Weakened but still acceptable collateral positions.
- Failure to obtain proper documentation.
- Management problems, pending litigation, an ineffective loan agreement or other material structural weakness, or any other significant deviation from prudent lending practices.

This loan classification is generally transitory in nature. The weaknesses to be corrected should be identified and corrected within the timeframe of a specific action plan (generally no longer than one year). If the correction does not take place within the framework of the plan, further downgrade may be warranted. All Special Mention loans will be monitored for improvement or deterioration of the borrower's financial condition.

#### **SUBSTANDARD (D)**

Loans graded D may be inadequately protected by current net worth, paying capacity or pledged collateral, if any. Loans are graded D when they have unsatisfactory characteristics causing more than acceptable levels of risk. D loans typically have one or more well-defined and uncorrected weaknesses indicating inability for repayment of the debt or the borrower's financial information indicates an unacceptable level of risk. These loans are characterized by the distinct possibility the Company will sustain some loss if the deficiencies are not corrected. A potential loss does not have to be recognizable in an individual credit for that credit to be rated substandard; therefore, a loan can be fully and adequately secured and still be considered a substandard credit. Situations that suggest a D classification include the following:

- Cash flow deficiencies exist that jeopardize future loan payments.
- Past due principal or interest.
- The sale of non-collateral assets has become a primary source of repayment for the loan.
- The relationship has deteriorated to the point that the sale of collateral is now the Company's primary source of repayment (unless it was the original source of repayment). If the collateral is in the Company's control and is cash or is highly marketable, a C or O classification may be appropriate.
- Loans that will not be repaid within the normal time frame associated with the type of loan or original loan terms.
- Loans rated D require a high level of management supervision.

#### **DOUBTFUL (E)**

All loans with weaknesses inherent in the D classification and for which collection or liquidation in full is questionable are graded doubtful (E). An E classification causes the loan to be placed immediately on non-accrual.

#### **LOSS (F)**

An F rating is assigned to loans considered uncollectible and of such little value that their continuance as an active Company asset is not warranted. This rating does not mean that the asset has no recovery value or salvage value, but rather the asset should be charged off now, even though partial or full recovery may be possible in the future.

*(continued)*

## Notes to Consolidated Financial Statements

---

### Note 4 - Loans *(continued)*

Loans may be occasionally restructured due to economic or legal reasons relating to the borrower's financial condition by granting a concession in an attempt to protect the Company's investment. A modification of a loan's terms constitutes a troubled debt restructure if the Company grants a concession to the borrower that it would not otherwise consider. Not all modifications of loan terms automatically result in a troubled debt restructure. For example, if the modified terms are consistent with market conditions and representative of terms the borrower could obtain in the open market, the restructured loan is not categorized as a troubled debt restructure. However, if a concession (e.g., below market interest rate, forgiving principal or previously accrued interest) is granted based on the borrower's financial difficulty, the troubled debt restructure (TDR) designation is appropriate.

The Company offers a variety of modifications to borrowers. The modification categories offered can generally be described in the following categories:

**Rate Modification** - A modification in which the interest rate is changed.

**Term Modification** - A modification in which the maturity date, timing of payments or frequency of payments is changed.

**Interest Only Modification** - A modification in which the loan is converted to interest only payments for a period of time.

**Payment Modification** - A modification in which the dollar amount of the payment is changed, other than an interest only modification described above.

**Combination Modification** - Any other type of modification, including the use of multiple categories above.

There was one loan for \$240,000 in the year ended December 31, 2021, and one loan for \$291,000 in the year ended December 31, 2020, that was modified into a troubled debt restructure. There were no loans that were modified into a troubled debt restructure that subsequently defaulted during the years ended December 31, 2021 and 2020. At December 31, 2021 and 2020, there were no commitments to lend additional funds to borrowers whose loans have been modified.

Certain related parties of the Company, principally Company directors and their associates, were loan customers of the Company in the ordinary course of business during 2021 and 2020. Total loans outstanding at December 31, 2021 and 2020, to key officers and directors were \$2,432,000 and \$2,689,000 respectively. During 2021 loan advances totaled \$958,000 and loan repayments totaled \$945,000 on these loans. During 2020 loan advances totaled \$3,570,000 and loan repayments totaled \$4,015,000 on these loans.

**Cares Act** - Pursuant to the CARES Act passed in March 2020, the Company funded 220 loans end of December 31, 2021, and 329 loans end of December 31, 2020 to eligible small businesses and non-profit organizations who participated in the Paycheck Protection Program ("PPP") administered by the U.S. Small Business Administration ("SBA"). PPP loans have terms of two to five years and earn interest at 1%. In addition, the Bank received a fee of 1%-5% from the SBA depending on the loan amount, which was netted with loan origination costs and amortized into interest income under the effective yield method over the contractual life of the loan. The recognition of fees and costs is accelerated when the loan is forgiven by the SBA and/or paid off prior to maturity. PPP loans are fully guaranteed by the SBA and are expected to be forgiven by the SBA if they meet the requirements of the program. The balance of PPP loans at December 31, 2021 and 2020 was \$6,247,000, and \$33,807,000 respectively (included in commercial loans). The Company ended its origination of new PPP loans on May 31, 2021. On June 5, 2020, the PPP Flexibility Act was signed into law that modified, among other things, rules governing the PPP payment deferral period.

*(continued)*

## Notes to Consolidated Financial Statements

### Note 4 - Loans (concluded)

In October 2020, due to updated guidance from the SBA that PPP loan payments were to be deferred until SBA had remitted forgiveness funds to the lender if the Borrower applied for forgiveness within ten months after the end of their covered period, the Bank modified the first payment due dates for PPP loans that originated prior to June 5, 2020 and extended the payment deferral period from six to sixteen months. The extended payment deferral period will affect the timing over which the accretion of PPP net loan origination fees are recognized.

Section 4013 of the CARES Act and Section 541 of the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (the "Coronavirus Relief Act") passed in January 2021 provided optional, temporary relief from evaluating loans that may have been considered TDRs under GAAP. This relief applies to loan modifications executed between March 1, 2020 and the earlier of 60 days after the national emergency related to the Pandemic is terminated, or January 1, 2022. The Company elected to apply these temporary accounting provisions to payment relief loans beginning in March 2020. As of December 31, 2021 1 loan totaling \$472,000, and as of December 31, 2020 14 loans totaling \$2,927,000 and were modified as CARES Act deferrals and not subject to TDR accounting and reporting.

### Note 5 – Servicing

Mortgage loans serviced for others are not included on the accompanying consolidated balance sheets. The unpaid principal balances of mortgage and other loans serviced for others were \$70,363,000 and \$97,120,000 at December 31, 2021 and 2020, respectively.

Custodial escrow balances maintained in connection with the foregoing loan servicing, and included in deposits, were approximately \$516,000 and \$650,000 at December 31, 2021 and 2020, respectively.

The activity pertaining to mortgage servicing rights and the related valuation allowance for the years ended December 31, is as follows (*dollars in thousands*):

	<b>2021</b>	<b>2020</b>
Balance, beginning of year	\$326	\$475
Additions	78	118
Impairments	(20)	(88)
Recovery	0	0
Amortization of servicing rights	(124)	(179)
Balance, end of year	<b>\$260</b>	<b>\$326</b>
Fair Value	<b>\$477</b>	<b>\$599</b>
<b>Valuation Allowance:</b>	<b>2021</b>	<b>2020</b>
Balance, at beginning of year	(\$164)	(\$76)
Additions	\$0	\$0
Reductions	(20)	(88)
Balance, end of year	<b>(\$184)</b>	<b>(\$164)</b>

(continued)

## Notes to Consolidated Financial Statements

---

### Note 5 – Servicing (concluded)

The fair value of servicing rights was determined using a discount rate of 9.0% at December 31, 2021 and 2020. Prepayment speeds ranging from 12.59% to 21.32% and 13.76% to 26.25% December 31, 2021 and 2020, respectively, constant prepayment rate (CPR), depending on the specific characteristics of each loan.

The most significant assumption in valuing the servicing rights is the change in prepayment speed that results from shifts in mortgage interest rates. The Company assumed weighted-average years to payoff to range from 1.8 to 6.1 years and 2.1 to 5.4 years at December 31, 2021 and 2020, respectively, depending on loan type and interest rates.

Servicing rights are included in other assets on the consolidated balance sheet.

### Note 6 - Premises and Equipment

The components of premises and equipment at December 31 are as follows (*dollars in thousands*):

	<u>2021</u>	<u>2020</u>
Land	\$2,250	\$2,250
Buildings	27,526	26,362
Furniture and equipment	5,513	5,271
	<b>35,289</b>	<b>33,883</b>
Less accumulated depreciation	12,826	11,758
	<b>\$22,463</b>	<b>\$22,125</b>

The total depreciation expense for years ending December 31, 2021 and 2020 was \$1,068,000 and \$720,000, respectively.

Rental expense of month to month leased premises and equipment totaled \$7,000 in 2021 and 2020 which are included in occupancy and furniture and equipment expense.

### Note 7 – Deposits

The aggregate amount of certificates of deposit with balances of \$250,000 or more was approximately \$3,599,000 and \$3,280,000 at December 31, 2021 and 2020, respectively.

Scheduled maturities of certificates of deposit for future years ending December 31 are as follows (*dollars in thousands*):

2022	18,876
2023	4,710
2024	2,001
2025	1,092
2026	1,475
Thereafter	<u>0</u>
<b>Total</b>	<b><u>\$28,154</u></b>

(continued)

## Notes to Consolidated Financial Statements

---

### Note 7 – Deposits *(concluded)*

Certain related parties of the Company, principally Company directors and their associates, have deposit accounts with the Company. Total related party Company deposits were \$4,729,000 and \$5,388,000 at December 31, 2021 and 2020, respectively.

### Note 8 - Security Repurchase Agreements

The following table presents information regarding securities sold under agreements to repurchase for the years ended December 31 *(dollars in thousands)*:

	<u>2021</u>	<u>2020</u>
Average balance during the year	\$24,509	\$17,715
Average interest rate during the year	0.05%	0.07%
Maximum month-end balance during the year	\$27,985	\$21,949
Balance outstanding at year-end	\$27,985	\$15,676
Average interest rate at year-end	0.05%	0.07%

Investment securities are pledged as collateral in an amount equal to or greater than the repurchase agreements. The carrying amount of securities pledged as collateral for repurchase agreements at December 31, 2021 and 2020, were \$28,857,000 and \$23,112,000, respectively.

### Note 9 - Employee Benefits

#### 401(k) Profit Sharing Plan

The Company has a profit-sharing 401(k) plan, with cash or deferred arrangements permitted by Internal Revenue Code subsection 401(k). Eligibility requirements are six months of service and attainment of age 21, with plan entry the following January 1 or July 1. The Company's profit-sharing contribution is 6 percent of eligible compensation. The Company's safe-harbor matching contribution is 100 percent of the first 6 percent of a participant's eligible compensation per payroll period deferred as 401(k) contributions. Under the 401(k) savings aspect of the plan, employees may contribute up to the regulatory or statutory dollar limitation for deferrals, plus the catch-up dollar limitation. The safe harbor matching contribution does not have an hour of service or employment on the last day of the plan year accrual requirement. The profit-sharing contribution has a greater than 500 hours of service accrual requirement if not employed on the last day of the plan year. There is no hour of service accrual requirement if employed on the last day of the plan year, the employee dies, becomes disabled, or attains the plan's normal retirement age. Total employer contribution expenses were \$1,513,000 and \$1,507,000 for 2021 and 2020, respectively.

#### Outside Directors' Nonqualified Deferred Compensation Plan

The Company has an outside directors' nonqualified deferred compensation plan. Under the terms of the plan, an outside director (a non-employee director) may participate in the plan. The participant may elect to defer a portion of his or her directors' fees as designated at the beginning of each plan year. The Company does not make nonelective contributions to the plan. Payments begin after termination of service for any reason. Payments may begin prior to termination of service for an unforeseeable emergency. There are currently four participants in the plan. Balances include total deferrals plus earnings and were \$975,000 and \$873,000 at December 31, 2021 and 2020, respectively. There were no expenses incurred related to the administration of the plan for 2021 and 2020, respectively.

*(continued)*

## Notes to Consolidated Financial Statements

### Note 9 - Employee Benefits *(concluded)*

#### Stock Incentive Plan

The Company adopted a restricted stock purchase/bonus incentive plan for the benefit of key employees. The objective of the plan is to retain personnel of experience and ability in key positions by providing them with a proprietary interest in the Company. The plan is also expected to enhance the ability of the Company to attract and retain key employees. The Company's plan is administered by its board of directors' Executive Compensation Committee. Members of this committee consist only of the Chair of the Board and other Board members.

The plan allows for the issuance to participants of up to 240,800 shares of the Company's common stock. As of December 31, 2021, shares remaining in reserve for issuance under the plan were 34,676.

The restricted stock is awarded to employees at the end of a five-year vesting period. During the vesting period the employees have voting and dividend rights. Compensation expense in the amount of the fair value of the common stock at the date of the grant to the plan participants will be recognized straight line over the five-year vesting period. Compensation expense related to the plan was \$242,000 and \$172,000 for the years ended December 31, 2021 and 2020, respectively. The tax benefit recognized on this compensation was \$51,000 and \$36,000 for the years ending December 31, 2021 and 2020, respectively. At December 31, 2021, unrecognized compensation expense related to nonvested restricted stock awards was \$656,000 and is expected to be recognized as follows:

	<b>Stock-Based Compensation Expense</b>
2022	\$202
2023	177
2024	144
2025	100
2026	33
<b>Total</b>	<b>\$656</b>

The following summarizes activity under the restricted stock plan for the years ended December 31:

	<b>Shares</b>	<b>Aggregate Intrinsic Value</b>	<b>Weighted Average Grant Date Fair Value</b>
<b>Restricted stock grants unvested at December 31, 2019</b>	<b>11,235</b>	<b>\$0</b>	<b>\$69.28</b>
Granted	4,996		71.58
Vested	(1,637)		67.79
<b>Restricted stock grants unvested at December 31, 2020</b>	<b>14,594</b>	<b>\$0</b>	<b>\$69.12</b>
Granted	5,062		68.95
Vested	(3,596)		68.56
<b>Restricted stock grants unvested at December 31, 2021</b>	<b>16,060</b>	<b>\$13,002</b>	<b>\$69.19</b>

## Notes to Consolidated Financial Statements

### Note 10 - Income Taxes

Income taxes are comprised of the following for the years ended December 31 (*dollars in thousands*):

	<u>2021</u>	<u>2020</u>
Current tax expense		
Federal	\$1,027	\$825
State	18	11
Total Current Tax Expense	1,045	836
Deferred tax		
Deferred tax (benefit) Federal	49	196
Deferred tax (benefit)-State	1	2
Total Deferred expense (benefit)	50	198
<b>Provision for Income Taxes</b>	<b><u>\$1,095</u></b>	<b><u>\$1,034</u></b>

The following is reconciliation between the statutory and the effective federal income tax rate for the years ended December 31 (*dollars in thousands*):

	<u>2021</u>		<u>2020</u>	
	<u>Amount</u>	<u>Percent of Pretax Income</u>	<u>Amount</u>	<u>Percent of Pretax Income</u>
Income tax at statutory rates	\$1,358	21.0%	\$1,317	21.0%
Increase (decrease) resulting from:				
Tax-exempt income	(457)	(6.0)	(389)	(5.0)
Other	194	2.4	107	1.4
<b>Total Tax Expense</b>	<b><u>\$1,095</u></b>	<b><u>17.4%</u></b>	<b><u>\$1,034</u></b>	<b><u>17.4%</u></b>

Tax effects of temporary differences that give rise to significant portions of deferred tax assets (liabilities) at December 31 are as follows (*dollars in thousands*):

	<u>2021</u>	<u>2020</u>
<b>Deferred Tax Assets</b>		
Allowance for credit losses	\$1,389	\$1,350
Deferred compensation	207	186
Nonaccrual interest	0	62
Stock-based compensation	97	64
Unrealized gain/loss on securities available for sale	320	0
Other	184	128
<b>Total deferred tax assets</b>	<b><u>2,197</u></b>	<b><u>1,790</u></b>
<b>Deferred Tax Liabilities</b>		
Accumulated depreciation and amortization	(752)	(574)
Unrealized gain/loss on securities available for sale	0	(607)
Prepaid expenses	(86)	(113)
Mortgage servicing rights	(55)	(69)
Other	(10)	(10)
<b>Total deferred tax liabilities</b>	<b><u>(903)</u></b>	<b><u>(1,373)</u></b>
<b>Net deferred tax assets</b>	<b><u>\$1,294</u></b>	<b><u>\$417</u></b>

The Company files income tax returns in the U.S. federal jurisdiction and Oregon. The Company does not have any uncertain tax positions. As of December 31, 2021, there was no accrued interest or penalties recorded in the financial statements.

## Notes to Consolidated Financial Statements

---

### Note 11 - Commitments and Contingencies

The Company is party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. These instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized on the consolidated balance sheets.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments. A summary of the Company's commitments at December 31 is as follows (*dollars in thousands*):

	<u>2021</u>	<u>2020</u>
Commitments to extend credit	\$109,721	\$98,421
Standby letters of credit	\$922	\$1,394

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company's experience has been that approximately 31 percent of loan commitments are drawn upon by customers. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the party. Collateral held varies, but may include accounts receivable, inventory, property and equipment, residential real estate, and income-producing commercial properties.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. Collateral held varies as specified above and is required in instances where the Company deems necessary.

The Company has agreements with commercial banks for lines of credit totaling \$20,000,000, none of which were used at December 31, 2021, and 2020. The Company has a credit line with the Federal Reserve Bank Discount Window. Currently the Company has \$4,970,000 of securities pledged with the Discount Window with the same borrowing capacity, of which \$0 was drawn on at December 31, 2021. In addition, the Company has a credit line with the Federal Home Loan Bank (FHLB) of Des Moines. Currently the Company has \$113,482,000 of loans pledged with FHLB with a borrowing capacity of \$79,051,000, of which \$0 was drawn on at December 31, 2021.

Because of the nature of its activities, the Company is subject to various pending and threatened legal actions which arise in the ordinary course of business. In the opinion of management, liabilities arising from these claims, if any, will not have a material effect on the financial position of the Company.

## Notes to Consolidated Financial Statements

---

### Note 12 - Significant Concentrations of Credit Risk

Most of the Company's loans, commitments, and standby letters of credit have been granted to customers and/or are secured by collateral located in the Company's market areas, which include Washington and northeastern Oregon. As such, significant changes in economic conditions in these areas or with its primary industries could adversely affect the Company's ability to collect loans. The concentrations of credit by type of loan are set forth in Note 4. The distribution of commitments to extend credit approximates the distribution of loans outstanding. Loans are generally limited, by federal banking regulations, to 15 percent of the Company's shareholders' equity, excluding accumulated other comprehensive income.

Investments in state and political debt securities involve governmental entities primarily in the state of Washington. Significant changes in economic conditions in these municipalities could adversely affect the issuers of these securities to repay their debt. The Company primarily focuses on municipality debt that is guaranteed by the taxing base of the issuer. Furthermore, the Company performs detailed reviews of the majority of bonds which it purchases from issuers in Washington, Oregon, and Idaho.

The places its cash with well capitalized financial institutions. The amount on deposit fluctuates and typically exceeds the insured limits of the Federal Deposit Insurance Corporation, and the Company is therefore exposed to credit risk.

### Note 13 - Regulatory Matters

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory -- and possibly additional discretionary -- actions by regulators that, if undertaken, could have a direct material effect on the Company's and Bank's financial statements. Under capital adequacy guidelines of the regulatory framework for prompt corrective action, the Bank must meet specific capital adequacy guidelines that involve quantitative measures of the Company's assets, liabilities and certain off-balance-sheet items, as calculated under regulatory accounting practices. The Bank's capital classification is also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and the Bank to maintain minimum amounts and ratios (set forth in the table below) of Tier 1 capital (as defined in the regulations) to total average assets (as defined), and minimum ratios of Tier 1 and total capital (as defined) to risk-weighted assets (as defined).

As of December 31, 2021, the most recent notification from the Bank's regulator categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum total risk-based, Tier 1 risk-based, and Tier 1 leverage ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed the Bank's category.

The Company's and the Bank's actual capital amounts and ratios are also presented in the following table. Management believes, as of December 31, 2021, that the Company and the Bank meet all capital requirements to which they are subject (*dollars in thousands*):

(continued)

## Notes to Consolidated Financial Statements

### Note 13 - Regulatory Matters (continued)

	Actual		Capital Adequacy Purposes		To be Well Capitalized Under Prompt Corrective Action Provisions

### December 31, 2020

<i>Tier 1 capital (to average assets):</i>						
Company	\$58,973	8.4%	\$28,137	4.0%	N/A	N/A
Bank	58,214	8.3	28,025	4.0	\$35,031	5.0%
<i>Common equity tier 1 capital ratio:</i>						
Company	58,974	16.1	16,533	4.5	N/A	N/A
Bank	58,214	15.8	16,533	4.5	23,881	6.5
<i>Tier 1 capital ratio:</i>						
Company	58,974	16.1	22,044	6.0	N/A	N/A
Bank	58,214	15.8	22,044	6.0	29,392	8.0
<i>Total capital ratio:</i>						
Company	63,588	17.3	29,392	8.0	N/A	N/A
Bank	63,828	17.1	29,392	8.0	36,741	10.0

The Federal Reserve and the Federal Deposit Insurance Corporation approved final capital rules in July 2013 that substantially amend the existing capital rules for banks. These new rules reflect, in part, certain standards initially adopted by the Basel Committee on Banking Supervision in December 2010 (which standards are commonly referred to as “Basel III”) as well as requirements contemplated by the Dodd-Frank Act.

Common equity Tier 1 capital generally consists of retained earnings and common stock (subject to certain adjustments) as well as accumulated other comprehensive income (“AOCI”), except to the extent that the Bank elected to make a one-time irrevocable option to exclude certain components of AOCI as of March 31, 2016. The Bank is required to establish a “conservation buffer,” consisting of a common equity Tier 1 capital amount equal to 2.5% of risk-weighted assets. An institution that does not meet the conservation buffer will be subject to restrictions on certain activities including payment of dividends, stock repurchases, and discretionary bonuses to executive officers.

The prompt corrective action rules are modified to include the common equity Tier 1 capital ratio and to increase the Tier 1 capital ratio requirements for the various thresholds. For example, the requirements for the Bank to be considered well-capitalized under the rules are a 5.0% leverage ratio, a 6.5% common equity Tier 1 capital ratio, an 8.0% Tier 1 capital ratio, and a 10.0% total capital ratio. To be adequately capitalized, those ratios are 4.0%, 4.5%, 6.0%, and 8.0%, respectively.

(continued)

## Notes to Consolidated Financial Statements

---

### **Note 13 - Regulatory Matters** *(concluded)*

The rules modified the manner in which certain capital elements are determined. The rules make changes to the methods of calculating the risk-weighting of certain assets, which in turn affects the calculation of the risk-weighted capital ratios. Higher risk weights are assigned to various categories of assets, including commercial real estate loans, credit facilities that finance the acquisition, development or construction of real property, certain exposures or credit that are 90 days past due or are nonaccrual, securitization exposures, and in certain cases mortgage servicing rights and deferred tax assets.

The Bank was required to comply with the new capital rules on January 1, 2015, with a measurement date of March 31, 2015. The conservation buffer was phased-in beginning in 2016 and took full effect on January 1, 2019. Certain calculations under the rules also had phase-in periods.

### Note 15 - Fair Value of Financial Instruments

The fair value estimates that follow are subjective in nature and involve uncertainties and matters of judgment; therefore, they are not necessarily indicative of the amounts the Company could realize in current market exchange. The Company has not included certain material items in its disclosure, such as the value of the long-term relationships with the Company's lending and deposit clients, since this is an intangible and not a financial instrument. Additionally, the estimates do not include any tax ramifications. There may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows that could materially affect the results. For all the reasons, the aggregation of the fair value calculations presented herein do not represent and should not be construed to represent the underlying value of the Company.

The following methods and assumptions were used in estimating its fair value disclosures for each class of financial instruments:

#### **Cash and Cash Equivalents, and interest-bearing deposits at other financial institutions**

The recorded amount is a reasonable estimate of fair value.

#### **Securities Available for Sale and Held to Maturity**

The Company's investment securities consist primarily of securities issued by U.S. Government sponsored enterprises and state and political debt securities that trade in active markets. These securities are included under Level 2 because there may or may not be daily trades in each of the individual securities and because the valuation of these securities may be based on instruments that are not exactly identical to those owned by the Company.

#### **Other Investments**

The carrying value of stock holdings approximates fair value.

#### **Mortgage Servicing Rights**

Mortgage servicing rights fair value is based on a valuation model that calculates the present value of estimated future net servicing income.

(continued)

## Notes to Consolidated Financial Statements

### Note 15 - Fair Value of Financial Instruments (continued)

The Company assumes interest rate risk (the risk that general interest rate levels will change) as a result of its normal operations. As a result, the fair values of the Company's financial instruments will change when interest rate levels change, and that change may either be favorable or unfavorable to the Company. Management attempts to match maturities of assets and liabilities to the extent believed necessary to minimize interest rate risk.

However, borrowers with fixed rate obligations are less likely to prepay in a rising rate environment and more likely to prepay in a falling rate environment. Conversely, depositors who are receiving fixed rates are more likely to withdraw funds before maturity in a rising rate environment and less likely to do so in a falling rate environment. Management monitors rates and maturities of assets and liabilities and attempts to minimize interest rate risk by adjusting terms of new loans and deposits, and by investing in securities with terms that mitigate the Company's overall interest rate risk.

ASC 820-10, *Fair Value Measurements and Disclosures*, provides enhanced guidance for measuring assets and liabilities using fair value and applies to situations where other standards require or permit assets or liabilities to be measured at fair value. It also requires expanded disclosure of items that are measured at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings.

Valuation techniques are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's assumptions about market value. These two types of inputs create the following fair value hierarchy:

- Level 1 – Quoted prices for identical instruments in active markets.
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable.
- Level 3 – Instruments whose significant value drivers are unobservable.

The following table summarizes the Company's financial instruments that were measured at fair value at December 31:

	<b>Fair Value Measurements Using</b>			
	<b>Fair Value</b>	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>
<i>(dollars in thousands)</i>				
<b>December 31, 2021</b>				
Assets Measured at Fair Value on a Recurring Basis				
Securities available-for-sale				
U.S. Government and agency securities	\$134,634	\$55,633	\$79,001	\$0
State and political debt securities	173,840	0	173,840	0
<b>Total</b>	<b>\$308,474</b>	<b>\$55,633</b>	<b>\$252,841</b>	<b>\$0</b>
Assets Measured at Fair Value on a Nonrecurring Basis				
Impaired Loans	\$13	\$0	\$0	\$13
<b>Total</b>	<b>\$13</b>	<b>\$0</b>	<b>\$0</b>	<b>\$13</b>

(continued)

## Notes to Consolidated Financial Statements

### Note 15 - Fair Value of Financial Instruments (continued)

	<b>Fair Value Measurements Using</b>			
	<b>Fair Value</b>	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>
<b>December 31, 2020</b>				
Assets Measured at Fair Value on a Recurring Basis				
Securities available-for-sale				
U.S. Government and agency securities	\$61,362	\$2,543	\$58,819	\$0
State and political debt securities	125,448	0	125,448	0
<b>Total</b>	<b>\$186,810</b>	<b>\$2,543</b>	<b>\$184,267</b>	<b>\$0</b>
Assets Measured at Fair Value on a Nonrecurring Basis				
Impaired Loans	\$25	\$0	\$0	\$25
<b>Total</b>	<b>\$25</b>	<b>\$0</b>	<b>\$0</b>	<b>\$25</b>

The Company uses the following methods and significant assumptions to estimate fair value. The Company's U.S. equity securities trade in a very active market of identical instruments and their valuation is therefore included under Level 1. The Company's securities available-for-sale at December 31, 2021 primarily consisted of U.S. Government and Agency obligations and state and political debt securities that trade in active markets. U.S. Treasuries trade in a very active market and their valuation is therefore included under Level 1. Other U.S. Government and Agency obligations securities are included under Level 2 because there may or may not be daily trades in each of the individual securities and because the valuation of these securities may be based on instruments that are not exactly identical to those owned by the Company. If quoted market prices are not available, the fair values are estimated using pricing models from investment service based upon the securities relationship to other benchmark quoted securities. Temporary changes in the valuation of securities available-for-sale do not affect current income; instead, unrealized gains or losses on available-for-sale securities are reported as a net amount in accumulated comprehensive income. Declines in the fair value of individual available-for-sale securities below their cost that are other than temporary result in write-downs of the individual securities to their fair value. No such write-downs have occurred during the periods presented.

Impaired loans in the table represent impaired, collateral dependent impaired loans that have been adjusted to fair value. The loss represents charge offs or impairments on collateral dependent loans for fair value adjustments based on the fair value of collateral. Impaired loans are individually reviewed to determine the amount of each loan considered to be at risk of non-collection. In determining the amount of each loan at risk, the Company reviews real property appraisals, equipment valuations, accounts receivable and payable listings and other financial information.

The following table presents qualitative information about Level 3 fair value instruments measured at fair value on a non-recurring basis during December 31, 2021 and 2020 (dollars in thousands):

<b>December 31, 2021</b>				
	<b>Fair Value</b>	<b>Valuation Technique(s)</b>	<b>Unobservable Input(s)</b>	<b>Average Discount</b>
Impaired Loans	\$13	Sales Comparison Approach	Adjusted for differences in comparable sales	15%

(continued)

## Notes to Consolidated Financial Statements

### Note 15 - Fair Value of Financial Instruments *(concluded)*

<b>December 31, 2020</b>				
	<u>Fair Value</u>	<u>Valuation Technique(s)</u>	<u>Unobservable Input(s)</u>	<u>Average Discount</u>
Impaired Loans	\$25	Sales Comparison Approach	Adjusted for differences in comparable sales	15%

### Note 16 – Earnings Per Share

Nonvested share-based payment awards that contain non forfeitable rights to dividends or dividend equivalents are participating securities and are included in the computation of EPS pursuant to the two-class method. The two-class method is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings. Certain of the Company's nonvested restricted stock awards qualify as participating securities.

Net income is allocated between the common stock and participating securities pursuant to the two-class method, based on their rights to receive dividends, participate in earnings, or absorb losses. Basic earnings per common share is computed by dividing net earnings available to common shareholders by the weighted average number of common shares outstanding during the period, excluding participating nonvested restricted shares.

Diluted earnings per share is calculated by dividing net income available to common shareholders by the weighted average number of common shares outstanding determined for the basic earnings per share calculation plus the dilutive effect of stock compensation using the treasury stock method.

The following table presents the computation of basic and diluted earnings per share for the periods indicated (in thousands, except share and per share data):

*Dollars in Thousands, except per share amounts*

December 31,	<u>2021</u>	<u>2020</u>
Net Income	\$5,374	\$5,235
Allocated to participating securities	(\$64)	(\$52)
Net income available to common shareholders	<u>\$5,310</u>	<u>\$5,183</u>
Weighted average common shares outstanding		
Net effect of dilutive shares	1,279,872	1,285,712
Diluted weighted average shares outstanding	<u>9,413</u>	<u>8,515</u>
	<b>1,289,285</b>	<b>1,294,227</b>
Earnings per common share		
Basic	\$4.15	\$4.03
Diluted	\$4.12	\$4.00
